## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. Claims 5-8 are still rejected under 35 U.S.C. 103(a) as being unpatentable over Von Stein (of record) for reasons of record.

### ***Response to Arguments***

2. Applicant's arguments filed 3/3/2003 have been fully considered but they are not persuasive.

Applicant argues that "examiner misstated a basic tenet of transmission line technology. According to the examiner, it is well known a short or open is required for reflection. This statement is incorrect." Applicant's argument clearly fails to point out what is difference between the claimed invention (Claims 5-8) and the reference of Von Stein (Fig. 1). The lines 7-29 in column 3 of Von Stein clearly recites that the impedance of a short circuit load with respect to odd number harmonics of a fundamental wave of a high frequency signal which meets the claims 5-8 limitations.
